

# VECTRON

## Customer displays

### Choice of three sizes

#### PERFECT ENSEMBLE

The customer displays Vectron C56, C75 and C100 are designed to match the POS systems POS Touch 12 II and POS Touch 15 II (Wide) and are compatible to many other models. They are either attached directly to the POS system housing or are supplied with a stand.

#### VECTRON C56

Displays customer sales information such as PLU name, unit price, total price, grand total, etc. in two lines.

#### VECTRON C75 AND C100

From promotions and discount specials to invoice details and the digital receipt, the displays show your customers everything that is topical and important.

### Your benefits

- ▶ **High-quality**  
Plastic housing with a glass pane in front of the LCD
- ▶ **Efficient**  
Power-saving, durable LED backlight
- ▶ **Ergonomic**  
Adjustable display angle for POS system mounting

# Customer displays

## SPACE FOR ESSENTIALS

The asset of the C56 is the display of important transaction information. The article name along with unit price, total price, total sum and other essential data is displayed in black and white in two lines.

## FLEXIBLE DISPLAY LAYOUTS

Without a long lead time, you can immediately start communication with the finished display layouts. Display of receipts, images, slide shows and split screen mode - the spacious customer displays provide you with numerous options for presenting your advertising message, your promotion and special offers.

## EASY CAMPAIGN MANAGEMENT

The C75 and C100 offer sufficient space for daily updated offers and campaigns imported centrally from the back office. This allows you to direct customer interest in real time and put your current topics and campaigns into focus at the point of sale. Use this to successfully control the sale of specific products.

## DIGITAL RECEIPT DISPLAY

The digital receipt contained in the Vectron digital package is directly displayed as QR code on the customer displays C75 and C100. The ecological alternative to the paper receipt.
