VECTRON POS M4

The new generation of mobile POS systems

VECTRON POS M4

The new generation of mobile POS systems

At peak times, with high customer frequency and in establishments with long walking distances, the **VECTRON POS M4** is a robust technical companion for your service staff. Where every minute gained means turnover, the mobile Vectron POS system keeps pace, reduces order times and saves the staff many metres per shift.

Together with the **VECTRON POS Android App** the **VECTRON POS M4** is a fully-fledged mobile POS system that provides all the functions of a stationary system. Alternatively, it can also be operated without individual programming with the **VECTRON MobileApp**.

The large 5.5 inch LED colour display with extra hard Corning Gorilla Glass on the touch screen ensures comfortable operation and the fast Quad-Core processor processes even the most extensive orders with its performance.

With the certified IP65 protection class, the **POS M4** is protected against dust and water and is also drop-proof up to 1.5 m.

You scan bar codes and customer cards directly with the built-in camera and the fast WLAN of the **POS M4** provides a wide-ranging and stable connection at all times.

Hardware

Software

- ▶ POS App or MobileApp
- ▶ Android operating system

Included accessories

- ▶ Battery, charging cable and power supply
- ▶ Hand strap

Optional accessories

- ▶ additional batteries
- ▶ charging station

VECTRON POS Android App

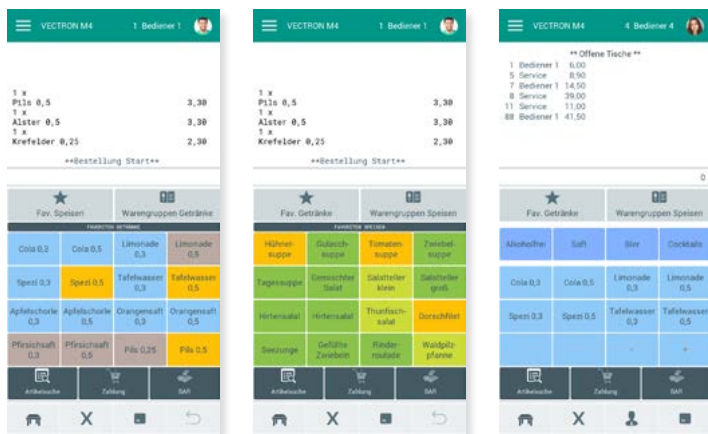

The full-fledged & standalone POS app

As the heart of any POS system, the **VPOS software** has been one of the leading POS software solutions across a wide range of industries for many decades.

This popular and proven software is now taken to a completely new level. For the first time, the **VECTRON POS** software is now used under **Android**. Due to the almost infinite customizability, the software can be adapted to every customer demand. The intuitive operation and powerful performance of the software ensure relaxed and efficient work.

Of course, the POS software meets all legal requirements and is fully protected against network failures.

Therefore, keep an overview even on stressful days and design processes in your business efficiently.

Speed, customizability and usability are merely a fraction of what Vectron POS software is all about.

The optimal coordination between hardware and software facilitates complex processes in your business.

VECTRON MobileApp

Intuitive, reliable POS App

The **VECTRON MobileApp**, together with an existing VECTRON POS system, enables **quick setup** and **very easy operation**. The software masters all the necessary basic functions to support your daily routine particularly efficiently.

With just a few touches, orders can be entered or changed and receipts can be closed.

A clearly arranged guest check management, PLUs that are grouped into product groups and search functions support the workflows.

Free multiplier and price input is possible and you can enter condiments and menu courses, print entertainment expenses and split guest checks.

- ▶ Flexible terms
- ▶ Can be combined with all stationary and mobile Vectron POS systems
- ▶ Stationary Vectron POS system works as server
- ▶ Works without Internet
- ▶ Data backup in the POS system
