

**VECTRON**

# Things can be so simple.

Jackpot for successful **bakeries**

# Jackpot for successful bakeries

## 1 Intelligent POS systems

The intuitive and easy operation of our POS systems facilitates your daily business and enables the simple networking of stationary and mobile devices to increase the workflow efficiency in your branches.

- Intelligent POS systems with fiscal security
- Intuitive software and digital solutions with high performance
- Browser-based applications at the touch of a button on your POS system
- Environmentally friendly and costsaving thanks to digital receipt

## 2 Safety in everyday branch life

Even in case of sophisticated workflows and permanent operation, our POS systems remain reliable and provide a high level of security against failure and tampering. Our Cloud services offer additional options for data backup like the fiscal or invoice archives.

- High hardware quality and durability
- Easy and intuitive operation
- Secure processes from the head office to the branch
- Offline capability and POS system backup in the cloud
- Stable cash register network and hold buffer floating

## 3 Everything from a single source

Vectron offers a comprehensive bundle of reliable hardware, intuitive software, digital solutions and all required services to cover all the needs of your branch.

- Numerous interfaces to bakery-specific software systems
- Payment as perfect solution for bakeries
- Backup of your tax-relevant check data in the myVectron-Cloud
- Automated connection to your DATEV-Online Kassenbuch

## 4 Customer retention made easy

A broad variety with target groups of all ages, from loyal regular customers to spontaneous occasional shoppers, changing product ranges and freshly produced goods every day - bonVito helps bakeries to increase turnover in their daily business with more customer loyalty.

- Make customers your friend
- Large variety of automated campaign options (e.g. loyalty cards and points collection)
- Stronger frequency on weaker days
- Make transactions tamper-proof

## 5 Individual solutions

With numerous options for connecting peripheral devices and industry-specific software, you can expand and adapt the system to your individual needs.

- Interfaces to all known bakery software solutions and payment terminals
- Mapping of your own processes and extension options as an individual solution
- Live connection of external reporting applications to your POS data

## 6 Personal on-site service

Together with the specialised trade, we accompany large and small companies on site, conscientiously and service-oriented on their way to success.

- On-site service thanks to permanent contact persons who know your enterprise and your requests
- Nationwide service network of qualified Vectron retailers
